

1)>

2)855 because it is not a multiple of 50.

3)984

4)False – The value of the tens digit is six.

5)40

6)Three hundred and twenty

7)300

8)28

9)3

10) 451

11) 831

12) 316

13) 285

14) I would rather have two £1 coins (=£2) because it is more money **OR** I would rather have three 50p coins (=£1.50) because having more money is not important to me.

15) Any number, using the digit cards, which is GREATER than 600 and ends in 4 or 6 (has 4 or 6 in the ones column).

eg 634, 694, 934, 946, 3694,4936, 6934,9346 BUT there are other numbers as well.
