

Tuesday - Activities

$\frac{1}{2}$			
$\frac{1}{4}$			
$\frac{2}{3}$			
$\frac{1}{2}$			
$\frac{3}{4}$			

Copy the shapes and colour in the fraction shown on the left.

Use each bar model on the left to complete the additions with fractions on the right.

$$\frac{2}{4} + \frac{1}{4} =$$

$$\frac{1}{5} + \frac{3}{5} =$$

$$\frac{3}{8} + \frac{4}{8} =$$

$$\frac{6}{10} + \frac{1}{10} =$$

Copy and colour in the circles to help you complete the additions with fractions below.

$$\frac{2}{5} + \frac{1}{5} =$$

$$\frac{3}{8} + \frac{2}{8} =$$

$$\frac{8}{10} + \frac{1}{10} =$$

$$\frac{5}{12} + \frac{2}{12} =$$

Tuesday - Answers

Use each bar model on the left to complete the additions with fractions on the right.

$$\frac{2}{4} + \frac{1}{4} = \frac{3}{4}$$

$$\frac{1}{5} + \frac{3}{5} = \frac{4}{5}$$

$$\frac{3}{8} + \frac{4}{8} = \frac{7}{8}$$

$$\frac{6}{10} + \frac{1}{10} = \frac{7}{10}$$

Copy and colour in the circles to help you complete the additions with fractions below.

$$\frac{2}{5} + \frac{1}{5} = \frac{3}{5}$$

$$\frac{3}{8} + \frac{2}{8} = \frac{5}{8}$$

$$\frac{8}{10} + \frac{1}{10} = \frac{9}{10}$$

$$\frac{5}{12} + \frac{2}{12} = \frac{7}{12}$$
