Step 1 : Line up your numbers correctly, make sure the biggest number is on the top.

Step 2: Start at the **ones** column, multiply the bottom number by the top number and write the answer in the space underneath the **ones** column.

Step 3: Then, move along to the **tens** column and do the same as step 2, then complete the **hundreds** column and so on.

Step 4: If you have to carry across to another column, then write the number underneath the next column.

Step 5: Check your answer using the inverse.
