Use the number line to help you if you need it.

The class went on a school trip to the circus.

They each brought some spending money for the gift shop.

Choose one gift for each child to buy and work out what they will have left.

One has been done for you:      continue with each price tag.

$$64p - 6p = 58p \text{ left.}$$

$$32p - 6p =$$

$$64p - 3p =$$

$$64p - 7p =$$

$$64p - 4p =$$

$$64p - 5p =$$
