# Bridging through 10

Have a go at these calculations by working out what the "Next 10" is to turn into a number bond question. Then add the remaining amount.

$17 + 9 =$

Example

1. $13 + 8 =$

2. $15 + 7 =$

3. $28 + 6 =$

4. $45 + 9 =$

5. $87 + 7 =$

6. A lollipop costs 17p and a candy bar costs 6p. How much altogether?

7. There are 19 people on a bus and 7 more people get on. How many are now on the bus?

8. In a Purple Mash game Bob scored 77 points. Bill played the same game and scored 8. How many points did they score altogether?
