

National Child Measurement Programme (NCMP)

The National Child Measurement Programme (NCMP) is available for all children in Reception and Year 6 who attend a school under Leeds City Council. This is offered by the 0-19 Public Health Integrated Nursing Service.

The NCMP involves measuring your child's height and weight to calculate their BMI. They will remain fully clothed, but will be asked to remove their shoes. No individual measurements will be given to school staff or other children and all the information we gather will be treated confidentially. Your child's results will be sent to you through the post. It will not be shared with the school without your consent.

The 0-19 Public Health Integrated Nursing Service supports your child in a range of ways including emotional health, oral health promotion, weight management and routine young carer inquiry, ensuring those with long term illnesses and other needs, get extra support when needed. We help young people throughout their school life to reach their full potential and will respond to any information shared.

If you do not want your child to be included in the National Child Measurement Programme or you would like to share any information with us, please call us on 0113 843 5683 to let us know.

You can also find out more on the NHS website:
